

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

Product Number 4459
Product Name Kendex 0111
Synonyms Bright Stock Petrolatum/Bright Stock Wax
Chemical characterization Paraffinic Wax.
Manufacturer, importer, supplier American Refining Group, Inc.
 Lubricants and Specialty Products Division
 77 North Kendall Avenue
 Bradford, PA 16701
EMERGENCY TELEPHONE NUMBER CHEMTREC: 1-800-424-9300

2. COMPOSITION/INFORMATION ON INGREDIENTS

CAS	Chemical Name	% Weight	TSCA*	DSL - Canada*
8009-03-8	Petrolatum	100	Present	Present

* TSCA - United States - Section 8 (b) Inventory (TSCA)

* DSL - Canada - Domestic Substances List (DSL)

ACGIH - TLV 2 mg/m³ (8 hour TWA)

3. HAZARDS IDENTIFICATION
Emergency Overview:

- Use all necessary personal protection when handling this material.

Eye contact	No eye irritation.
Skin contact	May cause irritation with repeated exposure. May cause burns in molten form.
Inhalation	Avoid breathing vapors or mists. Inhalation may cause mild irritation of respiratory tract. .
Ingestion	Ingestion may cause nausea, vomiting, and diarrhea.
General advice	As with any chemical, use caution when handling.

4. FIRST AID MEASURES

General advice	<ul style="list-style-type: none"> • Immediate medical attention is not required • If exposure symptoms persist, seek medical attention. • Show this safety data sheet to the doctor in attendance
Skin contact	<ul style="list-style-type: none"> • Wash off immediately with soap and plenty of water • If skin irritation persists, seek medical attention.
Eye contact	<ul style="list-style-type: none"> • Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes • If eye irritation persists, seek medical attention
Inhalation	<ul style="list-style-type: none"> • Move to fresh air. • If exposure symptoms persist, seek medical attention.
Ingestion	<ul style="list-style-type: none"> • Do not swallow. Rinse mouth with water and afterwards drink plenty of water. • Never give anything by mouth to an unconscious person • Consult a physician if necessary
Notes to physician	<ul style="list-style-type: none"> • Treat symptomatically

Protection of first-aiders	<ul style="list-style-type: none"> • Use necessary personal protective equipment
Aggravated Medical Conditions	<ul style="list-style-type: none"> • Users with skin conditions (eczema, psoriasis, etc.), respiratory conditions (asthma, bronchitis, emphysema, etc.) or with chemical sensitivities should take protective precautions.

5. FIRE-FIGHTING MEASURES

Flash point	<ul style="list-style-type: none"> • >550°F/288°C
Suitable extinguishing media	<ul style="list-style-type: none"> • carbon dioxide (CO2) • water fog • alcohol-resistant foam • dry chemical
Extinguishing media which must not be used for safety reasons	<ul style="list-style-type: none"> • Water, except as fog
Special exposure hazards arising from the substance or preparation itself, its combustion products, or released gases	<ul style="list-style-type: none"> • Keep product and empty container away from heat and sources of ignition
Special protective equipment for firefighters	<ul style="list-style-type: none"> • As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear
Specific methods	<ul style="list-style-type: none"> • In the event of fire, cool tanks with water spray • Use spark-proof tools and explosion-proof equipment
NFPA (National Fire Protection Association)	<ul style="list-style-type: none"> • Health=0, Fire=1, Reactivity=0, Special=0

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	<ul style="list-style-type: none"> • Evacuate personnel to safe areas • Keep people away from and upwind of spill/leak • Wear personal protective equipment • Remove all sources of ignition • Ensure adequate ventilation • Floors may be slippery
Environmental precautions	<ul style="list-style-type: none"> • Prevent further leakage or spillage if safe to do so • Prevent product from entering drains
Methods for cleaning up	<ul style="list-style-type: none"> • Solid at normal room temperature • Pick up and transfer to properly labelled container for disposal. • Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container

7. HANDLING AND STORAGE

Handling

Technical measures/Precautions	<ul style="list-style-type: none"> • Molten form, use caution
Safe handling advice	<ul style="list-style-type: none"> • Wear personal protective equipment • Do not breathe vapours or spray mist. Ensure that ventilation is adequate before using this product.

Storage

Technical measures/Precautions	<ul style="list-style-type: none"> • Keep containers tightly closed; discard any material that may be contaminated or, which may have changed composition. • Protect from light • Keep in properly labelled containers.
Incompatible products	<ul style="list-style-type: none"> • No information available

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering measures	<ul style="list-style-type: none"> None under normal processing
Personal protective equipment	
Hand protection	<ul style="list-style-type: none"> Wear appropriate protective gloves
Eye protection	<ul style="list-style-type: none"> Wear tightly fitting safety goggles or safety glasses with side-shields
Respiratory protection	<ul style="list-style-type: none"> When workers are facing concentrations above the exposure limit they must use appropriate certified respirators
Skin and body protection	<ul style="list-style-type: none"> Long sleeved clothing
Hygiene measures	<ul style="list-style-type: none"> Handle in accordance with good industrial hygiene and safety practice Keep away from food, drink and animal feeding stuffs When using, do not eat, drink or smoke

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information

Form	Solid.
Colour	Brown.
Odour	Bland.

Important Health Safety and Environmental Information

Boiling Point	>330°C / >625°F
Vapor Pressure	Not applicable.
Density	7.3 lbs/gallon
Vapour density	Not applicable.
Water solubility	Insoluble.
Specific Gravity	0.88.
Melt Point	>60C/140F

10. STABILITY AND REACTIVITY

Stability	Stable under normal conditions.
Conditions to avoid	Burning produces obnoxious and toxic fumes
Materials to avoid	None.
Hazardous decomposition products	None under normal use. When burned :carbon dioxide, carbon monoxide, hydrocarbons.
Polymerization	Polymerization does not occur.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Component Information

Product Information

LD50/dermal/rat =	> 4 ml/kg
LD50/oral/rat =	>5000 mg/kg
LC50/inhalation/8h/rat =	
Local effects	
Skin irritation	May cause skin irritation in susceptible persons.
Eye irritation	May cause eye irritation.
Inhalation	Move to fresh air in case of accidental inhalation .
Ingestion	Nausea, Vomiting, Diarrhea (detersive effects).
Sensitization	May cause sensitization of susceptible persons.
Chronic toxicity	Prolonged exposure may cause chronic effects.
Specific effects	
Carcinogenic effects	Did not show carcinogenic or teratogenic effects in animal experiments, based on testing of similar materials.

Mutagenic effects	Did not show mutagenic effects in animal experiments. Not mutagenic in AMES Test.
Reproductive toxicity	No information available.
Target Organ Effects	No information available.

12. ECOLOGICAL INFORMATION

Ecotoxicity effects

Component Information

Product Information

Aquatic toxicity No information available.

Other information:

Ozone depletion potential; ODP; (R-11 = 1)	No information available.
Global warming potential (GWP)	No information available.
Additional ecological information	Slack waxes are not readily biodegradable in water but are inherently biodegradable based on test results of similar products.
Mobility	
Bioaccumulative potential	In theory, waxes have the potential to bioaccumulate due to the hydrocarbon component having log Kow values over 6.
Ecotoxicity effects	Aqueous solubility is too low to cause acute toxicity in aquatic organisms.
Aquatic toxicity	Based on inferences from chronic ecotoxicity studies on base oil stock, slack waxes are not expected to cause chronic effects in aquatic organisms.

13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.

14. TRANSPORT INFORMATION
