

# Kendex® 0150

(C.A.S. #: 64741-88-4)

Product Code: R11-4305

Kendex® 0150 is a medium viscosity, paraffinic base oil that is solvent extracted. Kendex® 0150 has a naturally high viscosity index which translates to better stability and less change in viscosity over a broad temperature range. This high VI, in conjunction with other attributes of Kendex® 0150 such as light color, high flash point make this base oil a good choice as a component for various blending and compounding processes or as an intermediate in manufacturing.

## Kendex® 0150

Base Oil (Group I), Medium 150 SUS Neutral

**Applications:** Lubricant formulations; Process oil; Manufacturing intermediate

ASTM Method	Description	Specification		
		Minimum	Maximum	Typical
D4052	Gravity, API LB/GAL			32.0 7.21
D1500	Color		3.0	1.5
D445	Viscosity @ 40°C, cSt	27.0	31.0	30.0
D445	Viscosity @ 100°C, cSt			5.2
D2270	Viscosity Index	95		100
D92	Flash Point, °F (°C)	375 (191)		380 (193)
D5949	Pour Point, °F (°C)		10.4 (-12)	5 (-15)
D5773	Cloud Point, °C			-12

Mixing with incompatible chemicals may be hazardous. This product is for industrial use only. Safety data sheets are available upon request.
