

Safety Data Sheet

Prepared according to GHS

1. Identification

Product Name Product Code(s) Recommended Use Company Transmission Final Drive & Hydraulic Fluid Series

7354, 7355, 7356

Hydraulic Transmission

American Refining Group, Inc. 77 North Kendall Avenue Bradford, PA 16701

www.amref.com msds@amref.com

Emergency Telephone

Number(s)

Chemtrec 1-800-424-9300 (24 HRS)

ARG: 814-368-1297 (24 HRS)

2. Hazards Identification

GHS Classification Signal Word Hazard Statements Other Hazard Information GHS Pictogram Eye Damage/Irritation 2A

WARNING!

Causes serious eye irritation

Not applicable

Precautionary Statements

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

IF eye irritation persists: Get medical advice/attention.

Wash thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

3. Composition / Information on Ingredients

CAS No.	Component	Percent
68649-42-3	Zinc alkyl dithiophospate	<3

4. First Aid Measures

7354, 7355, 7356 Revision #:0 Page **2** of **6**

7334, 7333, 7330	Revision #.0	rage Z UI O		
	4. First Aid Measures			
Eyes	Check for and remove any contact lenses. Immed	iately flush eyes		
	with plenty of water for at least 15 minutes, occas	ionally lifting the		
	upper and lower eyelids. Get medical attention in	nmediately.		
Skin	In case of contact, immediately flush skin with ple	enty of water for		
	at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.			
Inhalation	Move exposed person to fresh air. Get medical at	tention if		
	irritation develops.			
Ingestion	First aid is normally not required. Get medical a	ttention if		
	discomfort develops.			
Note to Physicians	No specific treatment. Treat symptomatically. Co	ontact poison		
	treatment specialist if large quantities have been ingested or			
	inhaled.			

5. Fire Fighting Measures

Suitable Extinguishing Media

Use dry chemical, CO₂, water spray (FOG) or foam

Unsuitable Extinguishing Media

Avoid solid water stream as it may scatter and spread fire.

Specific Hazards Arising from Chemical

Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbon monoxide.

Protective Equipment and Precautions for Firefighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental Release Measures

Personal Precautions

Put on appropriate personal protective equipment.

Environmental Precautions

Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

Methods for Containment

Stop leak if without risk.

Methods for Cleanup

Cover liquid spill with sand, earth or other noncombustible absorbent material. Cover powder spill with plastic sheet or tarp to minimize spreading. Pick up and transfer to properly labeled container

7. Handling and Storage

Handling Procedures

Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist.

Shipping and Storing Procedures

Keep container tightly closed in a dry place. Keep away from heat. Protect from light. Keep in properly labeled containers. Keep out of the reach of children.

Revision #:0

7. Handling and Storage

Incompatibilities:

Oxidizing Agents

8. Exposure Controls / Personal Protection

Component Exposure Limits*

When mists/aerosols can occur the following are recommended: 5 mg/m³ - ACGIH TLV (inhalable fraction), 5 mg/m³ - OSHA PEL.

*Product has 0 kPa pressure at 68°F and is not expected to present any inhalation hazard at ambient conditions. Caution should be taken to prevent aerosolization or misting of this product. Oil mist, if generated, is considered hazardous according to the OSHA Hazard Communication Standard.

Engineering ControlsMaterial should be handled in enclosed vessels and equipment only if

aerosolized and/or misted. Use only in adequate ventilation if this occurs. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants

below any recommended or statutory limits.

Eye/Face Protection Safety glasses. If potential for splash or mist exists, wear chemical

goggles or face shield.

Skin Protection Normal work gloves are appropriate

Respiratory ProtectionNo special requirements under ordinary conditions of use and with

adequate ventilation.

General Hygiene Wash hands, forearms and face thoroughly after handling chemical

products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove

potentially contaminated clothing.

9. Physical and Chemical Properties

Note: Physical and chemical properties are provided for safety, health and environmental considerations only and may not fully represent product specifications. Please see the Product Specification Sheet for further information.

10. Chemical Stability & Reactivity Information

ReactivityPolymerization will not occurChemical StabilityStable under normal conditionsHazardous ReactionsNone, under normal processing.

Conditions to Avoid High temperatures

Incompatibility Strong acids and oxidizing materials

Hazardous Decomposition Smoke, carbon monoxide, carbon dioxide, aldehydes and other

Products products of incomplete combustion.

11. Toxicological Information

Acute Exposure

Respiratory Irritation Not expected to pose respiratory irritation. An inhalation hazard may only

arise if product is aerosolized or if heated up. If material is misted or if vapors

are generated from heating, exposure may cause irritation of mucous

membranes and upper respiratory tract. Based on data from similar materials.

Eye Irritation Weak to moderate eye irritant.

Skin Irritation Not expected to cause irritation under normal use.

Sensitization May cause skin sensitization. Based on data from components or similar

materials.

Aspiration Hazards Not expected to pose an aspiration hazard if swallowed.

Chronic Exposure

Target Organ Effects No data available to indicate product or components at greater than 1% are

chronic health hazards.

Carcinogenicity No data available to indicate product or any components present at greater

than .1% are carcinogenic.

Mutagenicity No data available to indicate product or any components present at greater

than

.1% are mutagenic or genotoxic.

Reproductive Toxicity No data available to indicate either product or components present at greater

than .1% that may cause reproductive toxicity.

Teratogenicity No data available to indicate product or any components contained at greater

than .1% may cause birth defects.

15. Regulatory Information

SARA Extremely Hazardous Substances (Sections 302 & 304)

SARA Section 313

This product does not contain greater than 1% of any "extremely hazardous substances" listed pursuant to Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) Section 302 or Section 304 as identified in 40 CFR Part 355, Appendix A and B. This product does not contain greater than 1.0% of the substances subject to the reporting requirements of Section 313 of Title III of the

Superfund Amendments and Reauthorization Act of 1986 and 40

CFR Part 372.

SARA Section 311 & 312 Classifications

CERCLA This product does not contain any "hazardous substances" listed under the

Comprehensive Environmental Response, Compensation and Liability Act of

1980 (CERCLA) in 40 CFR Part 302, Table 302.4.

California Prop 65 This product is not routinely tested to determine chemical(s) known to the

state of California to cause cancer and/or birth defects based on maximum

impurity levels of components.
