

# **Safety Data Sheet**

Prepared according to GHS

#### 1. Identification

Product Name ARGuard RP 150 Rustproofing Oil

Product Code 9001

**Recommended Use**Rust proofing oil

Company American Refining Group, Inc.

77 North Kendall Avenue Bradford, PA 16701 www.amref.com msds@amref.com

Emergency Telephone Chemtrec 1-800-424-9300 (24 HRS)

Number(s) ARG: 814-368-1297 (24 HRS)

#### 2. Hazards Identification

**GHS Classification** Flammable Liquids Category 3

Aspiration Hazard Category 1 Eye Irritation Category 2B Skin Irritation Category 2

Specific Target Organ Toxicity-Single Exposure (narcotic effects)

Category 3

Static Accumulating Liquid

Signal Word DANGER!

**Hazard Statements** Flammable liquid and vapor

May be fatal if swallowed and enters airways.

Causes eye irritation Causes skin Irritation

May cause respiratory irritation; or May cause drowsiness or

dizziness

Other Hazard Information Static accumulating liquid can become electrostatically charged

even in bonded and grounded equipment

Sparks may ignite liquid and vapor may cause flash fire.

Liquid conductivity is <100 pS/m (picosiemans/meter) at 77°F

**GHS Pictogram** 

**Precautionary Statements** 

Do not breathe mist or vapors

Use only outdoors or in a well-ventilated area

If inhaled: Remove person to fresh air and keep comfortable

for breathing.

Call a poison center/doctor if you feel unwell.

9001

Revision Date: 9/1/2020 Revision #:0 Page 2 of 9

#### 2. Hazards Identification

**If swallowed:** immediately call a poison center or doctor.

Do NOT induce vomiting.

Store Locked up

Store in a well-ventilated place.

Wear protective gloves/clothing/eve protection/face protection Keep away from heat/sparks/open flames/hot surfaces. -No smoking

Keep container tightly closed

Ground/bond container and receiving equipment. This alone may be insufficient to remove static electricity.

Use explosion-proof electrical/ventilating/lighting equipment.

Use only non-sparking tools

If on skin: take of immediately all contaminated clothing. Rinse skin with water/shower.

Store in a well-ventilated place. Keep cool.

Wash thoroughly after handling.

**If in eyes:** rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: get medical attention/advice. If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

Dispose of contents in accordance with local/regional/national/ international regulations

### 3. Composition / Information on Ingredients

CAS No.	Component	Common Name	Percent
8052-41-3	Stoddard solvent	Mineral Spirits	60-70
64742-47-8	Petroleum Distillates, Hydrotreated light	Hydrotreated Distillate	15-20

Hazardous Constituents contained in complex substances

CAS No.	Component	Common Name	Percent
111-84-2	Nonane	Nonane	4-5
25551-13-7	Trimethyl Benzene (mixed Isomers)	Hemellitene,	2-3
		Pseudocumene,	
		mesitylene	

#### 4. First Aid Measures

**Eyes** 

with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately. In case of contact, immediately flush skin with plenty of water for

Check for and remove any contact lenses. Immediately flush eyes

at least 15 minutes while removing contaminated clothing and

Skin

	4. First Aid Measures	
	shoes. Wash clothing before reus	e. Clean shoes thoroughly before
	reuse. Get medical attention imm	ediately.
Inhalation	Move exposed person to fresh air.	
<b>Ingestion</b> DO NOT INDUCE VOMITING. If convirts with water.		If conscious, rinse out mouth
Symptoms(Acute and delayed)	Exposure to high concentrations of the eyes, nose and throat, nausea,	1 7
Note to Physicians	No specific treatment. Treat symptometreatment specialist immediately ingested or inhaled.	· · · · · · · · · · · · · · · · · · ·

### 5. Fire Fighting Measures

### **Suitable Extinguishing Media**

Use dry chemical, CO<sub>2</sub>, water spray (FOG) or foam

### **Unsuitable Extinguishing Media**

Avoid solid water stream as it may scatter and spread fire.

### **Specific Hazards Arising from Chemical**

Elevated temperatures can lead to the formation of irritating vapors. Decomposing products may include the following materials: Carbon dioxide and Carbon monoxide.

This product is a static accumulating liquid. Static accumulating liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor may cause flash fire. Static electricity accumulation may be significantly increased by the presence of small quantities of water or other contaminates. Restrict flow velocity to avoid build-up of static charge. Refer to NFPA 77, API 2003, and CENELEC CLC/TR 50404 for further guidance.

#### **Protective Equipment and Precautions for Firefighters**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

#### 6. Accidental Release Measures

#### **Personal Precautions**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

## **Environmental Precautions**

Prevent product from entering drains. Prevent entry into waterways, sewers, basements or confined areas.

#### **Methods for Containment**

Stop leak if without risk. Use absorbent pads or earthen dams to contain.

#### **Methods for Cleanup**

A vapor suppressing foam may be used to reduce vapors. Cover liquid spill with sand, earth or other noncombustible absorbent material. Cover powder spill with plastic sheet or tarp to minimize spreading. Pick up and transfer to properly labeled container

#### 7. Handling and Storage

#### **Handling Procedures**

9001 Revision #:0 Page **4** of **9** 

#### 7. Handling and Storage

Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Use non-sparking tools.

### **Shipping and Storing Procedures**

Store in accordance with local regulations. Store in a segregated and approved area. Keep in the original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials. Do not store in unlabeled containers. Store and use away from heat, sparks, open flame or any other ignition source. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers that retain product residue may be hazardous. **Incompatibilities:** 

Oxidizing Agents

### **8.** Exposure Controls / Personal Protection

**Component Exposure Limits** 

**Stoddard Solvent** 

N/A mg/m<sup>3</sup> **ACGIH TLV:** TWA: 100 ppm TWA:  $N/A mg/m^3$ STEL: N/A ppm STEL: **OSHA PEL:** TWA: 500 ppm TWA 2900 STEL: N/A ppm STEL:  $N/A mg/m^3$

**Engineering Controls**This product is a static accumulating liquid. Ground/bond container and

equipment. These alone may be insufficient to remove static electricity. Material should be handled in enclosed vessels and equipment. Use only in adequate ventilation. Use process enclosures, local exhaust ventilation

or other engineering controls to keep worker exposure to airborne

contaminants below any recommended or statutory limits.

**Eye/Face Protection** Chemical goggles and face shield.

**Skin Protection** Chemical resistant, impervious gloves complying with an approved

standard should be worn at all times. Coveralls, apron, and boots as

necessary to minimize contact.

**Respiratory Protection** Use a properly fitted, air-purifying or air-fed respirator complying with

an approved standard if a risk assessment indicated this is necessary. Respirator selection must be based on known or anticipated exposure

levels.

General Hygiene Wash hands, forearms and face thoroughly after handling chemical

products, before eating, smoking and using the lavatory and at the end of

9001 Revision #:0 Page **5** of **9**

### 10. Chemical Stability & Reactivity Information

**Reactivity** Polymerization will not occur

Chemical Stability Stable under normal conditions. If heated, product's static

accumulation will rise and could cause flash fire.

Hazardous Reactions
Conditions to Avoid
Incompatibility
None, under normal processing.
High temperatures, flames, sparks
Strong acids and oxidizing materials

Hazardous Decomposition Smoke, carbon monoxide, carbon dioxide, aldehydes and other

**Products** products of incomplete combustion.

#### 11. Toxicological Information

**Acute Exposure** 

**Respiratory Irritation** An inhalation hazard may only arise if product is used in aerosol conditions or

if heated up. If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and upper respiratory

tract.

**Eye Irritation**Causes mild eye irritation that is reversible with proper care. **Skin Irritation**Causes mild skin irritation that is reversible with proper care. **Sensitization**Not expected to cause skin or respiratory sensitization.

**Aspiration Hazard** If swallowed can be aspirated into lungs and cause chemical pneumonia,

varying degrees of pulmonary injury or death. If swallowed, do NOT induce

vomiting.

ARGuard RP 150 Rustproofing Oil Revision Date: 9/1/2020 American Refining Group, Inc.

Revision #:0 Page 6 of 9

**Chronic Exposure** 

Target Organ Effects Vapor/aerosol concentrations above recommended exposure levels are

irritating to the eyes and respiratory tract, may cause headaches, dizziness, anesthesia, drowsiness, unconsciousness and other central nervous system

effects including death.

Prolonged or repeated direct exposure to the skin results in symptoms of

irritation and redness, dermatitis or oil acne.

**Carcinogenicity** No data available to indicate product or any components present at greater

than .1% are carcinogenic.

**Mutagenicity** No data available to indicate product or any components present at greater

than

.1% are mutagenic or genotoxic.

**Reproductive Toxicity** No data available to indicate either product or components present at greater

than .1% that may cause reproductive toxicity.

**Teratogenicity** No data available to indicate product or any components contained at greater

than .1% may cause birth defects.

Analysis – LD50 / LC50

Inhalation LC50 Rat >5 mg/L (4Hr mist)

Oral LD50 Rat >5000 mg/kg
Dermal LD50 Rabbit >2000 mg/kg

#### 15. Regulatory Information

SARA Extremely Hazardous Substances (Sections 302 & 304)

**SARA Section 313** 

This product does not contain greater than 1% of any "extremely hazardous substances" listed pursuant to Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) Section 302 or Section 304 as identified in 40 CFR Part 355, Appendix A and B. This product contains the following components in concentrations greater than 0.1% for carcinogenic substances and/or 1.0% of the substances subject to the reporting requirements of Section 313 of
